# Community Partners Program

## Advertisement Options Detailed:

### \$25/year – Hyperlink to Business information

The listings of all businesses will include the:

- Business Name
- Location
- Phone Number and Business Contact if needed
- Email (if provided)
- Website (if provided)

The Phone Number, Email and Website will all be hyperlinked for \$25 total. Visitors to the site will then be able to call, email or go directly to your website from smartphones, tablets and computers.

### \$50/year – Revolving Ticker Ad

This option gives you an ad that will rotate among other ads constantly for a determined amount of seconds. Here you can feature your logo, business motto, and highlight your services. The rotating ads are a real attention getter.

### \$100/year – Single Webpage on the Community Partners Website

This option is for businesses or service providers who do not have a website or wish to have additional exposure online.

One page (or ½ page if you would like to partner with someone in your category of the directory) of the Community Partners Website will be devoted to your business. We will add your digital logo, business description and information, hours of operation, and one to two high resolution photos that you provide. Changes to this page will be \$5 each (photo switch, description update, change in hours of operation...) This is a great deal for your own space online!

If you do not have a digital logo, one can be created for you by Dominator Websites for an additional fee.

### \$300/year – Homepage Banner Ad

Homepage Banner Ads will be large images that do not rotate and are about 1/3 of the webpage width and linked to your website. This will give you the most visibility with visitors. We will use your current high resolution logo and information you designate, which will showcase your business.
